Dr. Benjamin Rohaut

Neuro-intensivist and Scientist (M.D. Ph.D.)

Division of Critical Care & Hospitalist Neurology, Columbia University Medical Center,

177 Fort Washington Avenue, Milstein 8GS-300; New York, NY 10032; Tel: (+1) 212-305-1928,

Fax: 212-305-2792, email: br2529@columbia.edu, website: https://brohaut.github.io

Professional Experience:

- **Post-doc Research Scientist** in Neuro-ICU at Columbia University, New York; Director: Prof. Jan Claassen (Current position since December 2017)

- **Post-doc Research Fellow** in Neuro-ICU at Columbia University, New York; Director: Prof. Jan Claassen (December 2016 - November 2017)

- **Post-doc Research Scientist** at Brain & Spine Institute (ICM), Paris; Director: Prof. Lionel Naccache (November 2015 - December 2016)

- **Clinical Fellow - Assistant Professor in Neuro-ICU** (CCA); Neurological Department of La Pitié-Salpêtrière Hospital (AP-HP), University Pierre et Marie Curie (UPMC) - Paris-6 (Prof. Baulac / Prof. Lubetzki & Dr. Bolgert; November 2012 - October 2015)

- **Ph.D. candidate in Cognitive Neuroscience** at ICM, Director: Prof. Lionel Naccache. Subject: *Neurophysiology of conscious and nonconscious semantic processing*; UPMC-Paris 06, Paris (November 2010- October 2015)

- **Clinical Fellow in general ICU** (Praticien attaché temps plein) at La Pitié-Salpêtrière Hospital, Paris (Prof. Similowski; November 2009- October 2010)

- **Medical Resident** at La Pitié-Salpêtrière Medical School, UPMC-Paris 06 (November 2004- October 2009)

Education:

- **Ph.D. in Cognitive Neuroscience,** University Pierre et Marie Curie, UPMC-Paris 06, France, 2015

- **M.D.** at UPMC, Specialties: **Neurology** (DES; 2009) **& Intensive Care Medicine** (DESC; 2013)

- **Master-II:** Sciences & Technologies. Integrative Biology & Physiology, Specialty: Neurosciences, UPMC-Paris 06, 2008

- **National Medical Concourse** – "ENC": 490th/ 3729 candidates, 2004

- Admitted in Saint Antoine UPMC-Paris 06 Medical school (concourse, 24th/~600), 1999

Scientific interests:

Exploring **Brain Dysfunction** in Intensive Care Unit (ICU) and developing tools to improve assessment & treatment of severely brain injured patients suffering from **Disorder of Consciousness**.

Main Scientific Publications: (details available on Google Scholar) :

Relations between semantic processing and consciousness:

• <u>Rohaut B</u> & Naccache L. Disentangling conscious from unconscious cognitive processing with event-related EEG potentials. Revue Neurologique. 2017;173(7-8):521-28.

• <u>Rohaut B</u>, Alario F-X, Meadow J, Cohen L, Naccache L. Unconscious semantic processing of polysemous words is not automatic. Neurosci Conscious. 2016(1):niw010.

• <u>Rohaut B</u>, Faugeras F, Chausson N, et al. Probing ERP correlates of verbal semantic processing in patients with impaired consciousness. Neuropsychologia. 2015;66:279-292.

Impairment and recovery of consciousness:

• Raimondo F, <u>Rohaut B</u>, Demertzi A, et al. Brain-heart interactions reveal consciousness in non-communicating patients. Ann Neurol. 2017;82(4):578-91.

• <u>Rohaut B*</u>, Raimondo F*, Galanaud D, Valente M, Sitt JD, Naccache L. Probing consciousness in a sensory-disconnected paralyzed patient. Brain Inj. 2017;31(1):1398-1403.

• Sitt JD*, King J-R*, El Karoui I, <u>Rohaut B</u>, et al. Large scale screening of neural signatures of consciousness in patients in a vegetative or minimally conscious state. Brain. 2014;137(Pt 8): 2258-2270.

• King J-R*, Sitt JD*, Faugeras F, <u>Rohaut B</u>, et al. Information sharing in the brain indexes consciousness in noncommunicative patients. Curr Biol CB. 2013;23(19):1914-1919.
